

**Papers selected from EWRA2017 for  
ENVIRONMENTAL PROCESSES**

1	<p>Influence of river routing methods on integrated catchment water quality modelling A. Moreno Rodenas, V. Bellos, J. Langeveld, F. Clemens Page / Book of Abstracts -60 Page / Proceedings -293</p>
2	<p>Definition of critical support area revisited I. Papageorgaki and I. Nalbantis Page / Proceedings -299</p>
3	<p>Weather generator utilization in climate impact studies: Implications for water resources modeling M.W. Gitau, S. Mehan, T. Guo Page / Proceedings -433</p>
4	<p>A simple scaling procedure to assess the impact of climate change on extreme precipitation A. Forestieri, E. Arnone, L.V. Noto Page / Proceedings -565</p>
5	<p>An investigation of the use of Sentinel-2 data for mapping wetlands: A case study from Greece A. Chatziantoniou, G.P. Petropoulos, E. Psomiadis Page / Book of Abstracts -102 Page / Proceedings -595</p>
6	<p>Trade-off between environmental flow policy and run-of-river hydropower generation in Mediterranean climate A. Kuriqi, A.N. Pinheiro, A. Sordo-Ward and L. Garrote Page / Book of Abstracts -124 Page / Proceedings -737</p>
7	<p>Land accounting perspective on water resources management G.T. Paschos, G.E. Bariamis and E.A. Baltas Page/Book of Abstracts -131 Page / Proceedings -789</p>
8	<p>Unusual river turbidity and water quality hysteresis in the most urbanised catchment in the UK D.M. Lawler Page / Book of Abstracts -165 Page / Proceedings -997</p>

9	<p>Pyrosequencing analysis of ammonia oxidizing bacteria in municipal activated sludge system  O.O. Awolusi, S. Kumari and F. Bux  Page / Book of Abstracts -166  Page / Proceedings -1003</p>
10	<p>CFD-aided modelling for hydrodynamic analysis of biological reactor  S. Manenti, S. Todeschini, M.C. Collivignarelli and A. Abbà Page/Book of Abstracts -173  Page / Proceedings -1043</p>
11	<p>Investigation of preparation conditions of Nano-SiO<sub>2</sub> embedded PES membranes for producing clean water from wastewater  A. Fouladitajar, M.B. Ghandashtani and F.Z. Ashtiani  Page / Book of Abstracts -176  Page / Proceedings -1065</p>
12	<p>Understanding the anaerobic fluidized membrane bioreactor for wastewater treatment  J. Wang, A.G. Fane and J.W. Chew Page/Book of Abstracts -177  Page / Proceedings -1071</p>
13	<p>Moving towards a water-sustainable chemical industry: Novel water recovery processes  G. Kolliopoulos, E. Shum, J. Marial and V.G. Papangelakis  Page / Book of Abstracts -179  Page / Proceedings -1075</p>
14	<p>Biological treatment of a low strength domestic wastewater in a membrane bioreactor  A. Bezirgiannidis, N. Marinakis, S. Ntougias and P. Melidis  Page / Book of Abstracts -181  Page / Proceedings -1083</p>
15	<p>Source separation technologies, opportunities for sustainable wastewater management  T. Zinati Shoa, M. Barjenbruch and A. Wriege-Bechtold  Page / Book of Abstracts -187  Page / Proceedings -1117</p>
16	<p>Assessing ecological flow conditions for wetlands fed from ungauged stream reaches  A. Gül, K. Ayyıldız, F. Barbaros and T. Baran  Page / Book of Abstracts -188  Page / Proceedings -1125</p>
17	<p>Case studies investigating hydraulic parameters in full-scale constructed wetlands  V.G. Ioannidou and J.M. Pearson Page/Book of Abstracts -193  Page / Proceedings -1157</p>

18	Modelling of nickel dynamics in vertical subsurface flow constructed wetlands using a System Thinking Environment C. Defo and R. Kaur Page / Book of Abstracts -194 Page / Proceedings -1165
19	Water quality estimation in Greek lakes from Landsat 8 multispectral satellite data E. Kontopoulou, P. Kolokoussis and K. Karantzalos Page/Book of Abstracts -201 Page / Proceedings -1199
20	Performance of direct contact membrane distillation for simulated dyeing wastewater treatment M. Lou, L. Ding, F. Zhao, F. Li, C. Ma, Q. Tian and Y. Liu Page / Book of Abstracts -207 Page / Proceedings -1239
21	Stable isotopes (dD & d18O) and major ion chemistry of surface waters in Tajikistan, arid Central Asia Q. Li, J. Wu and H. Zeng Page/Book of Abstracts -210 Page / Proceedings -1245
22	New, energy saving, cleaning procedures in MBR systems L. Lintzos, K. Chatzikonstantinou, N. Tzamtzis and S. Malamis Page / Book of Abstracts -209 Page / Proceedings -1253
23	Linkages between physicochemical status and hydromorphology in Greek lakes under WFD policy E. Mavromati, I. Kagalou, D. Kemitzoglou, A. Apostolakis and V. Tsiaoussi Page / Book of Abstracts -221 Page / Proceedings -1311
24	Water quality model of Alibeykoy watershed and LID implementation S. Gulbaz and C.M. Kazezyilmaz-Alhan Page / Book of Abstracts -223 Page / Proceedings -1325
25	Change of land use and soil coverage in the area of influence of natural national park Los Nevados D.A. Patino Rincon, S.A. Camargo, D. Rey, J.J. Velez and J. Zambrano Page/Book of Abstracts -224 Page / Proceedings -1331
26	Comparison of two habitat modeling approaches for the determination of the ecological flow G. Papadonikolaki, A. Stamou, E. Dimitriou, M.-D. Bui and P. Rutschmann Page/Book of Abstracts - 225 Page / Proceedings -1339
27	Bioavailability of metals in soils irrigated by synthetic wastewater: Metal speciation S.I. Korfali and H. Karaki Page/Book of Abstracts -227 Page / Proceedings -1353

28	Finding a sustainable balance in the water food nexus – Socio-economic transformation in an agricultural catchment M. Roobavannan, J. Kandasamy, S. Pande, S. Vigneswaran and M. Sivapalan Page / Book of Abstracts -228 Page / Proceedings -1361
29	Water management in nuclear power plant using advanced low temperature systems G. Zakrzewska - Koftuniewicz Page / Book of Abstracts -232 Page / Proceedings -1391
30	Productivity analysis based on fuzzy logic on paddy area irrigated by varied water sources B. Aydin and Y. Ahi Page /Book of Abstracts -234 Page / Proceedings -1397
31	Water buyback in agriculture: What can we expect? C.D. Perez-Blanco and C. Gutierrez-Martin Page / Book of Abstracts -271 Page / Proceedings -1623
32	Water Footprint for cotton irrigation scenarios utilizing CROPWAT and AquaCrop models M. Zoidou, I.D. Tsakmakis, G.D. Gikas and G. Sylaios Page / Book of Abstracts -277 Page / Proceedings -1669
33	The effect of Yazd wastewater on forage quantity and quality of Atriplex lentiformis A.A. Karimian and M. Ebrahimi Page/Book of Abstracts -282 Page / Proceedings -1703
34	Bioenergy water footprints, comparing first, second and third generation feedstocks for bioenergy supply in 2040 P.W. Gerbens-LeenesPage/Book of Abstracts -296 Page / Proceedings -1803
35	Vulnerability of groundwater to pollution using three different models in Halabja Saida basin, Iraq T.O. Abdullah, S.S. Ali, N.A. Al-Ansari and S. Knutsson Page / Book of Abstracts -301 Page / Proceedings -1827
36	Modifying SINTACS method to assess groundwater vulnerability and pollution risk to nitrate G. Busico, N. Colombani, E. Cuoco, M. Mastrocicco, M. Sirna and D. Tedesco Page / Book of Abstracts -306 Page / Proceedings -1863

37	<p>Application of head-guided zonation method to delineate groundwater vulnerability zones in a data-scarce catchment</p> <p>D.K.S.Y. Klaas, M.A. Imteaz and A. ArulrajahPage/Book of Abstracts -307</p> <p>Page / Proceedings -1869</p>
38	<p>Towards sustainable management of groundwater: A case study of semiarid area, Iraqi Kurdistan region</p> <p>M. Nanekely, M. Scholz and S. Qarani Aziz</p> <p>Page / Book of Abstracts -319</p> <p>Page / Proceedings -1949</p>
39	<p>Measuring sustainable delivery of water, sanitation and hygiene services at the household level: Does the measure matter?</p> <p>R. Giné-Garriga and A. Pérez-FoguetPage/Book of Abstracts -333</p> <p>Page / Proceedings -2021</p>
