

**Papers selected from EWRA2017 for
WATER UTILITY JOURNAL**

1	Water depth-damage functions for flood direct tangible damage evaluation in built-up areas in Sardinia (Italy) S. Frongia, A.Ruiu and G.M. Sechi (page 3)
2	On urban inundation and damage modeling A. Radice, A. Bettiga, R. Figueiredo and D. Molinari (page 11)
3	Numerical modeling of Samsun Mert River floods A. Ulke, N. Beden, V. Demir and N.Menek (page 27)
4	Cluster analysis and classification of storm events at Rethymno N. Martzikos, A. Lykou, C. Makropoulos and V. Tsoukala (page 57)
5	Prediction and validation of turbulent flow around a cylindrical weir N.G. Soydan, O. Şimşek, M.S. Akoz (page 85)
6	Impact of restoration measures in a densely urbanised area: The case of Buenos Aires I.M. Arzuaga, G. Navarro, and S.V. Vines (page 219)
7	Multivariate autoregressive modelling and conditional simulation of precipitation time series for urban water models J.A. Torres-Matallana,, U. Leopold and G.B.M. Heuvelink (page 325)
8	Research on conjunctive use of surface water and groundwater for managed aquifer recharge (MAR) at the River Nestos Delta, Greece L. Avgeris, D. Karasogiannidis, I. Gkiougkis, F. Pliakas, T. Tzevelekis, K. Bellos and I. Diamantis (page 781)
9	Near-real time hydrological drought monitoring in the European Drought Observatory C. Cammalleri, J. Vogt, and P. Salamon (page 821)
10	Modification of the Palmer Drought Severity Index for Mediterranean environments: Model and application A. Paulo, D.S. Martins, P. Paredes, R.D. Rosa, L.S. Pereira (page 827)

11	Monitoring drought in Shiraz, Iran, using Reconnaissance Drought Index (RDI) and Standardized Precipitation Index (SPI) S. Ansarifard and S.A. Shamsnia (page 865)
12	Regional drought analysis for derivation the drought SAF curve using bivariate copula in the Lake Urmia basin, Iran M. Montaseri, B. Amirataee and H. Rezaie (page 873)
13	Sustainable management of rainwater harvesting systems: A case study of semi-arid area M. Nanekely and M. Scholz (page 933)
14	Low flow conditions evaluation within the western Morava river basin Z. Simić and B.B. Matić (page 947)
15	Characterization of drought in Italy applying the Reconnaissance Drought Index R. Zucaro, C. Antinoro and G. Giannerini (page 967)
16	Evaluation of streamflow habitat relationships using habitat suitability curves and HEC-RAS Christina Papadaki, Vasilis Bellos, Maria Stoumboudi, George Kopsiaftis and Elias Dimitriou (page 1113) – [Book of Abstracts – 189]
17	Earth Observation based monitoring in Natura-2000 sites, providing ecosystem services for their adaptive management A. Zouboulis, A. Tsirika, E. Terzopoulou, G. Skoufas, I.-D. Adamakis, S. Kyriakidis, V. Liakopoulos, N. Tziolas, G. Zalidis (page 1191)
18	Assessment of the environmentally minimum lake level based on morphological features C. Doulgeris, P. Georgiou, A. Apostolakis, D. Papadimos, Di. Zervas, O. Petriki, D. Bobori, D. Papamichail, V. Antonopoulos, C. Farcas and P. Stålnacke (page 1205) – [Book of Abstracts – 202]
19	Development of an updated water quality index based on legislation and experts' opinion F. Iakovidou, E. Trikoilidou, G. Samiotis, A. Stamos, L. Tsikritzis and E. Amanatidou (page 1383) – [Book of Abstracts – 231]
20	Efficient parallel evolutionary optimization algorithm applied to a water distribution system T.T. Tanyimbohand A.G. Seyoum (page 1413)

21	<p>Modeling and optimization control of a hybrid water system H. Mu, T. Rauschenbach, D. Karamanzia and N. Cai (page 1421)</p>
22	<p>Using bayesian networks for risk assessment of real losses in water distribution systems M. Tabesh, N.R. Faghihi, A. Roozbahani, R. Heidarzadeh and B. Roghani (page 1429)</p>
23	<p>Diagnosis of water pipeline systems by frequency domain analysis M. Ferrante and C. Capponi (page 1437)</p>
24	<p>Reliability-based design of water distribution networks considering mechanical failures S. Sirsant and M.J. Reddy (page 1445)</p>
25	<p>Spectral analysis and topological and energy metrics for water network partitioning of Skiathos island A. Di Nardo, M. Di Natale, C. Giudicianni, C. Laspidou, F. Morlando, G.F. Santonastaso and D. Kofinas (page 1461)</p>
26	<p>Waterloss detection in streaming water flow timeseries using change-point anomaly methods S.E. Christodoulou, E. Kourti and A. Agathokleous (page 1467)</p>
27	<p>Towards resilient water networks by using resilience key performance indicators D. Ayala-Cabrera, O. Piller, J. Deuerlein and M. Herrera (page 1473)</p>
28	<p>Pressure dependent analysis for managing contaminant propagation in water supply systems M. Zafari, M. Tabesh and S. Nazif (page 1495)</p>
29	<p>Water demand management in Europe: Reducing household water consumption in four cities from 1995 to 2015 M. Stavenhagen, C. Tortajada and J. Buurman (page 1511)</p>
30	<p>Impact of water pricing policy and climate change on future water demand in Volos, Greece N. Mylopoulos, C. Fafoutis, S. Sfyris and A. Alamanos (page 1519)</p>

31	The role of domestic rainwater harvesting systems in storm water runoff mitigation I. Gnecco, A. Palla and P. La Barbera (page 1551)
32	Relationship between Hazen-William coefficient and Colebrook-White friction factor: Application in water network analysis M. Niazkar, N. Talebbeydokhti and S.H. Afzali (page 1567)
33	Calculation of the irrigation water needs spatial and temporal distribution in Greece K.X. Soulis and D.E. Tsesmelis (page 1601)
34	Irrigation water pricing in the countries of the OECD – Modern trends and critical review: The Greek case I. Giannopoulou, E. Eleftheriadou, S. Yannopoulos (page 1747)
35	Impact of land-use change on a multilayer aquifer in south-eastern coast of Caspian Sea I. Karimirad, K. Ebrahimi and S. Araghinejad (page 1873)
36	Mechanism of controlling seawater intrusion at coastal aquifers using subsurface barrier R. Shafiee, S.S. Mehdizadeh and A.S. Gooya (page 1889)
37	Long term monitoring of aquifer salinization processes in a physical analog model N. Colombani, B.M.S. Giambastiani and M. Mastrocicco (page 1895) – [Book of Abstracts – 311]
38	Sustainable restoration of the Urmia lake: History, threats, opportunities and challenges M. Soudi, H. Ahmadi, M. Yasi and S.A. Hamidi (page 2013)
39	Environmental crimes in the water sector L. Segato, W. Mattioli, N. Capello and M. Migliorini (page 2069)
